# **KITCHEN SHUTTER FINISH**

**(NON - EDGE BANDED SHUTTER )**

## **OPTION 1**

**PVC THERMOFOIL**

**MEMBRANE FINISH**

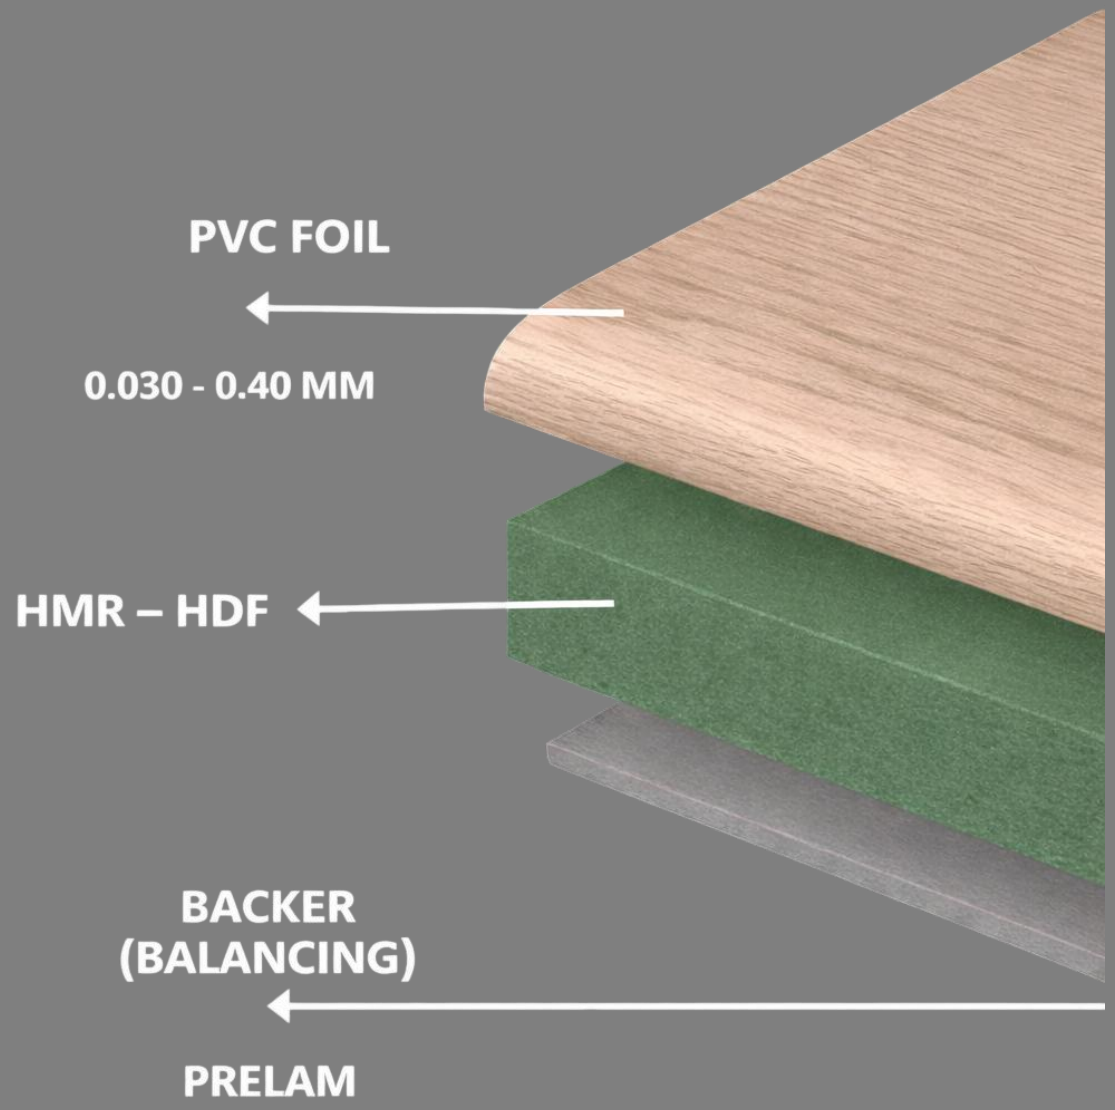

## PVC THERMOFOIL FINISH (MEMBRANE)

Membrane Finish is a process where PVC foil is vacuum-pressed onto HMR HDF boards using heat and pressure.

The heated membrane foil wraps smoothly over the surface and edges, creating seamless, durable, and stylish finish commonly used for shutters and wardrobes.

It provides uniform, seamless look with textures and color options.

# SHUTTER DESCRIPTION

## CHARACTERISTICS OF PVC THERMOFOIL

- **Aesthetic & Finish:**

Versatile colors and textures (matte, glossy, wood-grain) for a seamless, stylish look.

- **Durability:**

Long-lasting and resistant to moisture, wear & tear and minor scratches.

- **Surface:**

Vacuum-pressed for uniform, smooth, and joint-free finish over edges.

- **Maintenance:**

Easy to clean and stain-resistant with minimal upkeep.

- **Cost-Effectiveness:**

Affordable alternative for achieving a premium look compared to PU finish.

**Strength:**

Enhances structural stability and provides extra edge protection on base material HMR HDF.

## DESCRIPTION

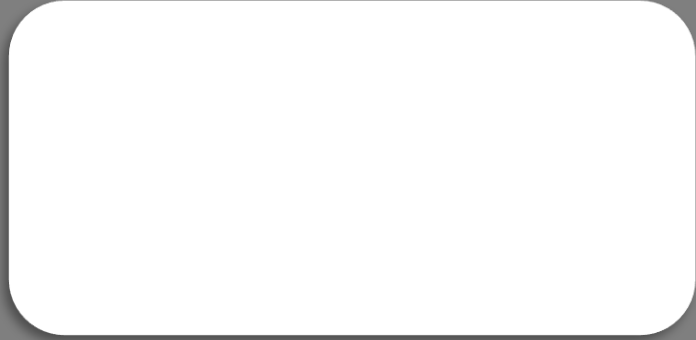

- Shutter thickness : 18 mm
- Shutter types : Regular, Classic (Routed), Fluted, Glass cut & Mesh glass cut
- Shutter base material : HMR HDF
- PVC Foil thickness : 0.30 – 0.40 MM
- Shutter balancing colors :
  - Caspani,
  - Santana Oak ,
  - Stone-grey Modern Ash - WP

# KITCHEN SHUTTER FINISH

(EDGE BANDED SHUTTER WITH PUR GLUE)

## OPTION 2

### POLYMER FINISH

1. POLYMAX PET – G
2. SERICA E.B.

## POLYMAX PET - G

Polymer POLYMAX PET – G (Polyethylene Terephthalate Glycol) finish is a protective, functional & decorative layer made from large molecules (polymers) pasted with flat-lam process on HMR HDF boards to enhance its properties like durability, chemical resistance, color & smoothness.

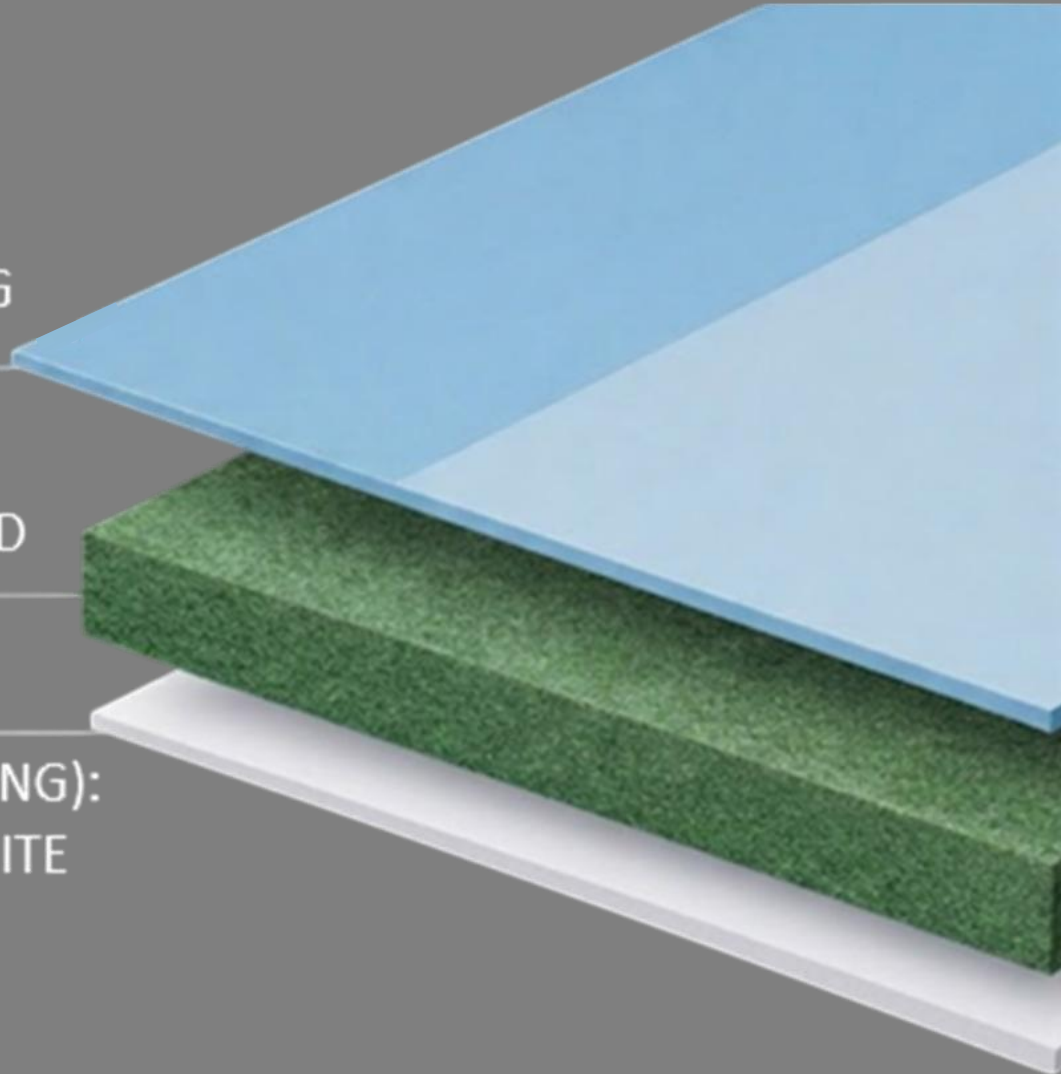

It creates a toughness with hydrophobic (water-repelling) barrier that protects surface from scratches, heat and moisture.

## SHUTTER DESCRIPTION

0.20 – 0.30 MM  
POLYMAX PET - G

HMR HDF BOARD

BACKER(BALANCING):  
KIGNSTONE WHITE

# CHARACTERISTICS OF POLYMAX PET-G SHUTTER (EDGE BANDED SHUTTER WITH PUR GLUE)

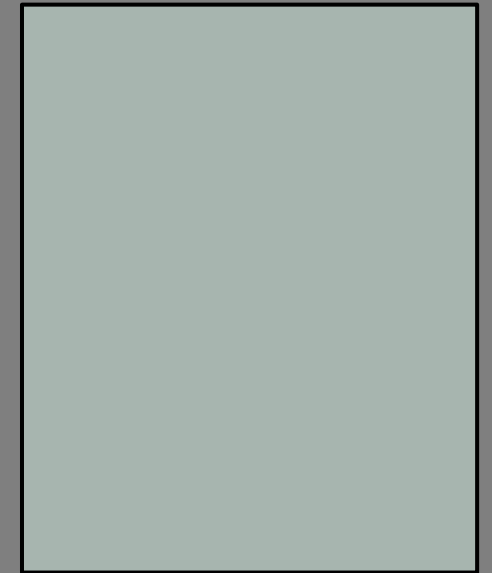

- Lightweight: Much lighter than metals and glass
- Durable: Resistant to wear & tear , impact & chemicals
- Moisture Resistant: Does not absorb moisture

## DESCRIPTION

- Shutter thickness : 18 mm
- Shutter base material : HMR HDF
- POLYMER PET – G skin thickness :0.20- 0.30mm
- Edge binding : 1.3 mm PVC edge band in matching colours with PUR glue
- Shutter balancing colors : Kingstone white

## SERICA E.B.

Polymer Serica EB is a high-tech satin surface finish offered in super-matte / metallic texture. The "EB" stands for Electron Beam curing, a cutting-edge manufacturing process that uses high-energy electrons to instantly harden (cure) the coating.

This advanced EB finish offers the perfect blend of luxury and utility. It stays spotless with its anti-fingerprint surface, resists daily wear and tear, and is environmentally friendly.

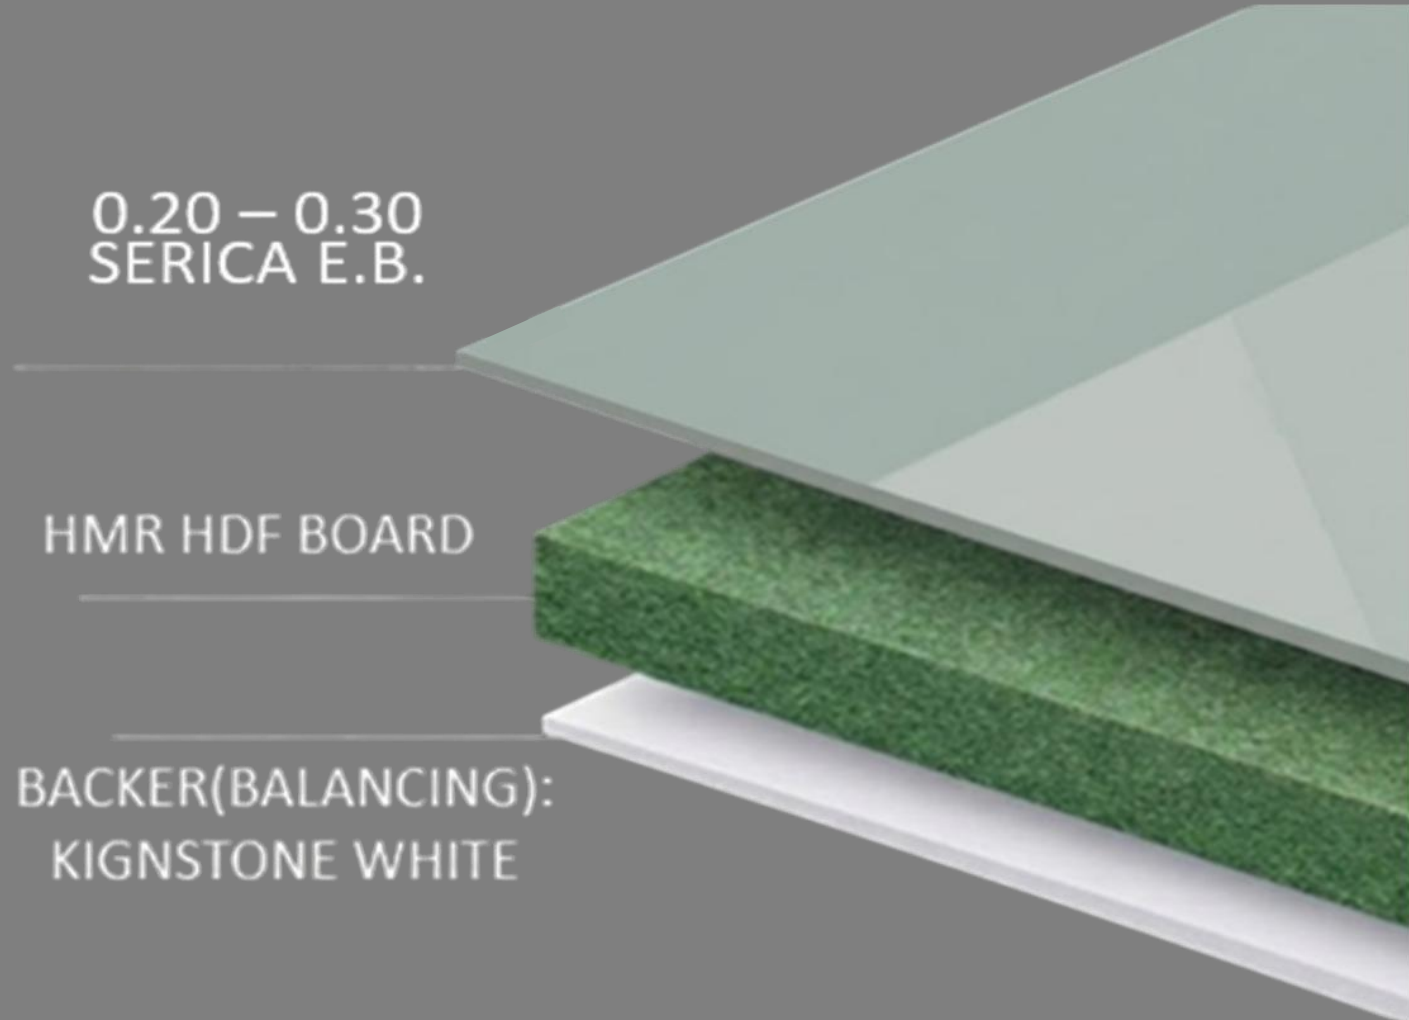

## SHUTTER DESCRIPTION

0.20 – 0.30  
SERICA E.B.

HMR HDF BOARD

BACKER(BALANCING):  
KIGNSTONE WHITE

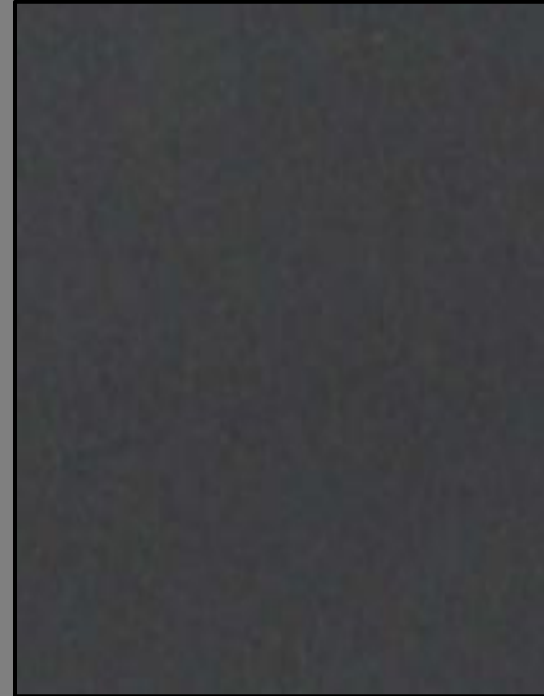

## CHARACTERISTICS OF SERICA E.B.

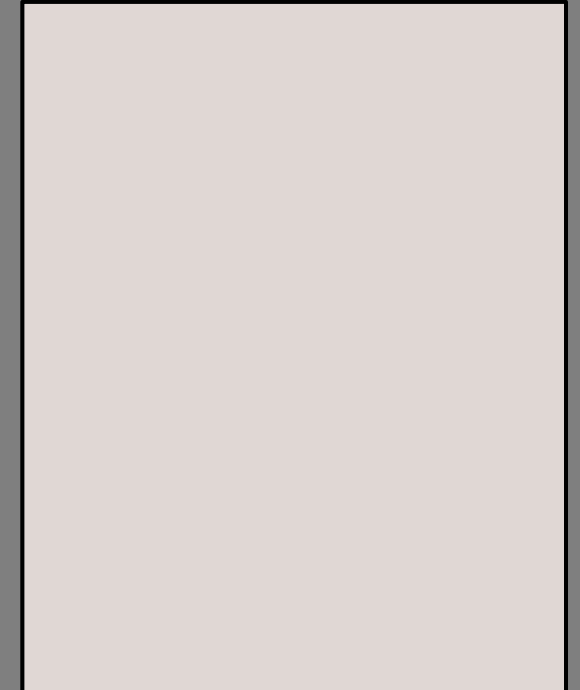

- **Super Matt Finish:** Premium, elegant look with minimal light reflection
- **High Surface Strength:** Resistant to daily wear and handling
- **Smooth & Uniform Texture:** Delivers a refined, high-end appearance
- **Moisture-Resistant Core (HMR):** Suitable for kitchens & humid areas
- **Consistent Finish Quality:** Maintains colour, texture & performance over time

## DESCRIPTION

- Shutter thickness : 18 mm
- Shutter base material : HMR HDF
- SERICA E.B. skin thickness : 0.20- 0.30mm
- Edge binding : 1.3 mm PVC edge band in matching colours with PUR glue
- Shutter balancing colors : Kingstone white
